

**UUCOD**  
**Outdoor Phase 2 Covid Protocols**  
**March 16, 2021**

Requirements for Church-Sponsored Outdoor Gatherings (25 or fewer people):

- Each group should designate a Safety Coordinator and maintain contact tracing information as in Phase 1.
- Building
  - Building is closed for gatherings except that access to the restrooms and kitchen is permitted for one individual or household at one time.
  - Upon entering the building, masks must be worn at all times while in the building.
  - Chairs and other items inside of the building may be brought outdoors for use by attendees.
- Masks and Distancing
  - If everyone in the group is 100% fully vaccinated (plus one low-risk non-vaccinated household), masks or distancing are not required. Fully vaccinated means at least two weeks past their final shot.
  - If more than one non-vaccinated household is at the gathering, then a minimum of 6' between household groups shall be maintained **or** masks must be worn at all times by everyone at the gathering.
- Food Consumption
  - If everyone in the group is 100% fully vaccinated (plus one low-risk non-vaccinated household), dining together without masks or distancing is permitted. Fully vaccinated means at least two weeks past their final shot.
    - Outdoor locations could include UUCOD property, restaurants, or any other locale.
  - If the 100% fully vaccinated +1 requirement is not met, no communal food or drink is to be served or consumed.
    - Individuals or households are welcome to bring their own food or drink, but should distance when their mask is lowered to eat or drink.
    - Restaurant dining is not permitted since distancing or the wearing of a mask at all times is not feasible in such a setting.
- Of course, individuals or groups may choose to continue to distance and/or wear a mask, even if our protocols do not require it...and such a choice will always be respected and honored.
