

GRANTS AND MULTI-YEAR FUNDING POLICY

From time to time, UUCOD may apply for grants or foundational assistance to assist it in its works. Sometimes these grants applied for require a matching component of "new" or other monies. There are other times when UUCOD commits itself to multi-year funding obligations for discreet projects. For these reasons it is essential that UUCOD systematize its procedures dealing with the application for grant or foundational assistance and for multi-year program funding obligations.

The Policy of the Board of Directors stipulates:

1. No person or committee shall apply for grants or other foundational financial assistance.
2. Only the Board of Directors has the power to authorize the application for grants or other foundational financial.
3. If the grant or foundational assistance has a requirement for matching "new" money, prior to approving the application, the Board must identify who will be responsible for the fundraising program and whether that person or persons have agreed to serve, the nature and timing of the fundraising event, and the event's impact on other church programs and revenues.
4. Only the Board of Directors has the power to authorize the commitment by UUCOD to bind itself to a multiyear spending program for discreet projects. Prior to approving such a commitment the Board must identify who will be responsible for the fundraising program to raise the funds necessary for the entire term of the commitment and whether that person or persons have agreed to serve, the nature and timing of the fundraising events, and the events' impact on other church programs and revenues.

RE-APPROVED by action of the board of directors at its duly constituted and noticed meeting held on September 19, 2017

Sarah Gonzales, President

Jane Zaun, Secretary
